

Can you explain ECA Finance in one sentence? If not, keep reading...

ECA Finance doesn't need to be a complicated subject. As someone once said, 'if you can't explain it simply, you don't understand it well enough.'

CC Solutions and TXF are running three, two-day courses this year that cover ECA Finance in serious detail; from the basics all the way through to complex techniques. So that by the end, you'll be able to do an Albert Einstein and explain it oh so simply.

6 Reasons to attend an ECA Finance Training Course

You will be learning in a small group. We restrict the number of attendees on our courses so that they present a uniquely intimate networking opportunity. And you get more time to pick our course leaders' brains.

You get to take away extensive course documentation to help you put what you have learnt into action. Out of the classroom and into the office.

You get up to date content, including specific guidance for the region and an afternoon with a guest speaker from the local ECA.

You can ask questions of our course leaders at any time. Francisco and Valerie have 50+ years of combined experience to share and they don't mind interruptions (honest).

You will have the chance to work closely with deal-makers active in the region during our group work sessions. Not only does it help to put the theory into practice, but it's an opportunity to discover the concerns of your clients and competitors.

You'll receive a certificate upon completion of your online exam (which you can take multiple times to test your knowledge).

Choose from our remaining course locations and book your place today...

Download your copy of the course brochure here

Frankfurt | 21st-22nd September | **Click here**

Hong Kong | 9th - 10th October | **Click here**

Dubai | 5th - 6th November | **Click here**

Or just share the love - if these courses would be more relevant to another member of your team feel free to pass them this email.

I hope to see you at one of our courses in the near future!

Best wishes,

Kate
